HOW TO ORDER

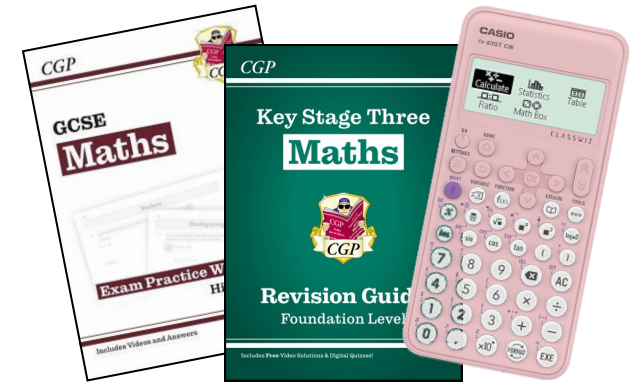

FOLLOW THESE EASY STEPS

All Maths Shop orders need to be made (and paid for) through **IRIS ParentMail**. We aim to deliver items within 1 week of ordering.

- 1) Login to [ParentMail](#) through the app, or by scanning in this QR code:
- 2) Once logged in, click on the "**Payments**" option from the menu.
- 3) Then select the "**Shop**" option.
- 4) Find each item you wish to purchase and click "**Add to Basket**". Then click "**Pay Now**" to check out.
- 5) You will then be asked to enter your Payment Method. Follow the steps, then select "**Complete**".

HOLLY LODGE
GIRLS' COLLEGE

CALCULATORS

All students have access to a **FREE** user guide for the **NEW** Casio fx-83 model on  Google Classroom.

At Holly Lodge Girls' College, all students are required to have their own scientific calculator as part of their basic equipment. While any scientific calculator is acceptable, we would recommend the **CASIO fx-83** model for the following reasons:

- ❑ It is the **UK's best-selling scientific calculator.**
- ❑ It has a **large natural textbook display which shows mathematical expressions as they appear in textbooks, exams, etc.**
- ❑ It can express answers as **fractions, decimals, mixed numbers, and more.**
- ❑ It is **accepted in all GCSE exams where calculators are allowed.**
- ❑ The **NEW** model (shown on the left) has **over 290 features, many more than the other scientific calculators on the market!**
- ❑ It is the model that **teachers will use during Maths lessons.**

For a limited time, we have a number of **pre-loved** Casio scientific calculators to sell for the reduced price of **£3.00**. Please note, all of our pre-loved calculators are pre-owned, **OLDER** models, and will not have as many features as the **NEW** Casio fx-83 model.

REVISION GUIDES & WORKBOOKS

While not essential, many students at Holly Lodge Girls' College choose to purchase revision guides and workbooks to help them with their independent practice at home. We sell books from **CGP** (the most popular revision guide brand in the UK) for around half the price they are sold for on the high street!
